

Cistel reaches out Through Cistel Foundation

The Cistel Foundation is the charitable voice of Cistel people. The company's employees and consultants make voluntary donations to the fund based on a vision to embrace community involvement and commit to building strong communities that embody the spirit of Cistel and its employees.

The Foundation was established in 2003 through the Ottawa Community Foundation to help solve community and local social challenges. The main philosophy in creating the Cistel Foundation was to give back. The Cistel Foundation is guided by the conviction that we will help to make a positive difference to the quality of life in the community in which we live.

For the next three years the Cistel Foundation is making a \$20,000 commitment to the Elizabeth Bruyere Institute for the refurbishment of one patient room in the institute.

In past years the Foundation has supported local charities that are concerned with the welfare of diverse communities. Some of these organizations have included: CHEO, Make a Wish in Atlanta, The Ottawa Hospital, Cancer Institute, The Heart Institute Foundation, Canadian Liver Foundation - Ottawa Chapter, Canadian Diabetes Association, Parkinson Society Ottawa, Muscular Dystrophy Canada, Ottawa Independent Living Centre and Carleton University to name a few.
